February 4, 1965

J. Edgar Hoover, Director
Federal Bureau of Investigation
Washington, D.C.

Dear Mr. Hoover:

I am currently engaged in a study of the excellent investigative work done by various agencies, especially the F.B.I., concerning the tragic assassination of President Kennedy.

I understand that in December, 1963 the FBI completed an extensive report on the assassination, which was turned over to the Warren Commission. I have not been able to find the text of the F.B.I. report among the published papers of the Commission.

Could you tell me how to obtain a copy of the original F.B.I. report, in which I am particularly interested ? If it has not yet been made public, would you please advise when its release might be expected.

Sincerely yours,

Paul Hoch
